NYSNA'S 2026 Regional Industry Seminars

All companies participating in direct diversion in New York have been invited to showcase their commodity options for schools to explore and select for next year's menus. This is your chance to connect directly with vendors, sample products, and see what's new and available!

While the spotlight will be on commodities, all corporate members are invited to participate and share their innovative products and services. Processors will be serving prepared, cooked samples of the exact commodity items featured on the survey forms – each labeled with the item code you'll need for ordering. Plus, we'll be highlighting vendors whose products qualify for the 30% – don't miss this opportunity to discover and support local options!

Please note: December weather can be unpredictable. If schools are closed due to inclement weather, seminars may be rescheduled. Stay up to date by visiting www.nyschoolnutrition.org for the latest information.
